

## CURRICULUM VITAE – Guy FAURE CONSULTANT IN HYDROGEOLOGY

### Personal data:

Address: 23, rue Paul Gauguin - 39170 SAINT LUPICIN – France  
Mobile: +33 (0) 6.07.50.36.24  
Mail: guy.faure@yahoo.fr  
Date of Birth: April 30, 1955  
French nationality

### Diplomas:

- 1982:** Doctorate in Hydrogeology – University of Lyon, Faculty of Geology:  
"Hydrogeological study of the Miocene aquifer in the Tertiary geological basin  
of Carpentras, France"
- 1983:** Analyst programmer: INSA - Lyon

### Professional experience:

- 1982:** Hydrogeologist at CPGF geophysics engineering company– Paris - France  
**1984 – 1987:** Engineer at SONDALP drilling company– Lyon - France  
**1987 – 1996:** Founding Director of the AQUASONDAGE drilling company.- Drôme - France.  
**1997 – 2007:** Founding Director of the IDEES-EAUX hydrogeological engineering company  
specialized in borehole diagnostic and data logging – Drôme - France  
**2007 – 2016:** Extension of the IDEES-EAUX SARL to a second agency in the department of  
Jura  
**2016 – Current position:** Founding Director of the INTERFACE-EAU.Fr SARL hydrogeological  
consultancy firm, providing technical expertise, training and remote coaching  
to the managers and technicians in charge of groundwater catchment works.  
The areas of intervention are mainly in the developing countries.

### Interventions abroad:

#### Hydrogeological studies:

- **2011 – 2017 (ongoing): Guadeloupe**, prospection for mineral water
- **2013 – 2015 : Niger**, hydrogeological study with MSF on the high content of fluoride  
in groundwater in relation to Fluorosis problems in the Maradi region

- **2015 – 2017 (ongoing): Zimbabwe**, hydrogeological study with MSF related to the recurrent outbreaks of Cholera and Typhoid fever in Harare

### Diagnosis and drilling of boreholes (short missions):

- **2012 : Vietnam**, borehole diagnosis in Hanoi, Nestlé Waters Group
- **2012 : Kosovo**, drilling expertise around the camp of Wushtrii, French Army
- **2011 : Afghanistan**, borehole diagnosis by camera inspection, data logging and pumping test in Kabul, French Army
- **2009 : Tchad**, diagnosis by camera inspection and pumping tests of the groundwater catchment works in N'Djaména - Abéché - Faya-Largau, French Army
- **2008 : Algeria**, Diagnosis of boreholes around the towns of Mila - Grarem - Souk Arhas, EGIS-EAU
- **2006 : Nicaragua**, supervision of the deep drilling operations, BCEOM
- **2005 : Democratic Republic of Congo (DRC)**, groundwater expert, BCEOM

---

### Complementary professional activities:

- **2017 – 2022 : France**, registered hydrogeologist for the departments : 01 - 39 - 42 - 71 – 84

---

### Teaching:

- **2016 – 2017 (ongoing) : Zimbabwe**, training session for the MSF staff in the diagnosis of boreholes
- **2014 : Burkina Faso**, training sessions for MSF-Niger staff in the rehabilitation of boreholes
- **2013 : Burkina Faso**, training sessions for MSF-Niger staff in the boreholes diagnosis
- **2002 – 2012 : France**, supervision of doctoral thesis as technical director: "Hydrogeological study of the Molasse du Bas-Dauphiné (3600 km<sup>2</sup>)" in collaboration with the University of Avignon

---

### Others:

Sports: cycling, skiing, running, climbing,  
 Driving license: A - B - C - D - E - Motorcycle  
 English: academic knowledge and travel  
 Spanish: academic knowledge and travel

I certify in all conscience that the above information accurately reflects my situation, my qualifications and my experience.

Guy FAURE
